Dear Parents / Carers

Asymptomatic testing for parents and adults in households with children at school /college

The NHS Test and Trace announced last week, that all adults in households with school and college age children without symptoms can now access regular rapid coronavirus (COVID-19) testing. Undertaking regular, rapid coronavirus (COVID-19) testing helps reduce transmission of the virus. This includes childcare and support bubbles. Tests are fast, easy and completely free. There are [different ways](#) for a household, childcare or support bubble to collect their test to take at home, twice-weekly:

- through your employer, if they offer testing to employees
- by collecting a home test kit from a local test site – anyone aged 18 or over can collect 2 packs of 7
- by ordering a home test kit online – please do not order online if you can access testing through other routes, this frees up home delivery for those who need it most.

We are not able to supply parents, carers or household members with kits from school.

Pupils who have been given consent **will** continue to access testing through school.

Testing is voluntary, but strongly recommended to all who are eligible. Alongside the vaccine, washing hands, wearing face coverings, and maintaining social distancing, rapid testing plays a vital role in reducing transmission rates. Getting into the habit of regular testing as part of our everyday lives will help us all to play our part and do what we can to protect each other.

Thank you for your continued support.

Yours sincerely

Mrs J Tate
